

Assignment 1

Due Date: 2/9/2000

Requirements: Printout of all code and properties, an executable on a floppy disk.

Write a program that calculates a monthly payment, after the user enters the following: Number of Monthly Payments, Annual Percentage Rate(APR), Principal(Amount Borrowed). The Program should be a modal dialog, the button and data entry fields should all have short cuts. The program should resemble the following.

Calculate Payment [X]

Number of Monthly Payments: 48

Principal: 27000

Annual Percentage Rate: 6.75

Payment: 639.82

Calculate
