

## Assignment 2

**Due Date:** 10/23/2001

**Requirements:** Submit all files required for the project on a floppy disk or email as attachments to [sschofer@qx.net](mailto:sschofer@qx.net)

Write a program that the user enters the number of times a user should be prompted to enter a number. The program should sum the numbers entered and display the result in a text box. Write a function that prompts the user the required number of times and returns the sum. The function should be in a code module
